SNOW FOR MAY DAY.

Middle West Fruit Crop Hurt.

White Blanket Covers Ken-tucky, Pennsylvania and Ohio.

Heavy Frost in Iowa, Kansas and Missouri Costs Millions.

Cold Extends from Minne-sota to Texas—Storms in the South.

BY DIRECT WIRE TO THE TIMES]

CHICAGO. April 30.—[Exclusive Dispatch] A snowstorm raged over a great portion of the Middle West today, working havoc to fruit and garden truck, and seriously delaying traffic. Kentucky, Ohio and Pennsylvania were covered with a blanket of snow from two inches to six inches deep, while in Missouri, Kansas, Iowa, Minnesota and Wisconsin there were killings.

It is the most remarkable and hurtful April 20 weather which has been recorded in this wide area, in many years. The losses sustained by fruit growers and farmers are estimated in the millions.

FROST IN THE SOUTH.

In nearly all of the Southern States the cold was felt, and a heavy frost occurred. At last reports night rain followed by a temperature where snow was the precursor, and warmer weather is now expected.

The reports of the snowfall are uniform from various cities in Ohio. It is the general opinion, however, that there will be little damage to vegetation, as the thermometer did not go below 30 degrees above freezing, except most, and trolley wires in some cities have been broken from falling branches. At Kenton, Ohio, it was thought that the fruit crop will suffer severely.

At Pittsburg, Pa., two inches of snow fell. Several houses in the vicinity of the city were damaged by lightning during the rainstorms which followed the snow. Reports from Kentucky say that in places the snowfall was the heaviest of the season. The race meeting at Lexington was declared off on account of the snow, a thing unheard of before in the Blue Grass State.

STORM IN FLORIDA.

A terrible windstorm destroyed much property, especially in Miami and Tampa. Early in the day, tobacco sheds, telegraph wires, and crops suffered. It is not believed that any lives were lost. A storm also passed over Grady, Ala., wrecking a number of houses and devastating crops.

Killing frosts are reported in Northern California and extending as far south as Lampeas. While garden truck and grain crops in Texas have suffered, it is not believed that the fruit has been hurt.

There was freezing weather, and frost in Northwestern Missouri and in all Eastern Kansas for 100 miles west from the Missouri line, where heavy damage was done.

COLD IN IOWA.

A heavy frost was general in Iowa, and damage to crops of all kinds is reported. The mercury dropped as low as 24 deg. during the night, and fruit trees in blossom were nipped. At Des Moines the thermometer fell to 3 deg. below freezing, with the result that garden truck and fruit trees were injured and damaged. Most fruit was reported from Marshalltown.

Heavy frosts, which did damage to vegetables and fruits, occurred in the sections of Missouri in the centers of which are Jefferson City, Carthage and St. Louis. It is believed that the entire State has suffered.

A killing frost visited Western Wisconsin and Southern Minnesota, with the result that hundreds of acres of fruit trees and other green products were frozen and blasted. Strawberry plants were frozen and wilted, and the losses to farmers and fruit growers are estimated in the thousands.

STORMS HIT NEW YORK.

Snow and Rain from Different Direc-tions Create Havoc in Gotham.

BY THE ASSOCIATED PRESS—P.M.

NEW YORK. April 30.—Two storms, one from the southwest which has been advancing rapidly from the Pacific Coast, and another which has moved more slowly from the northwest, reached New York in a dead heat.

The storm from the south brought rain, while the counter disturbance spread snow over the western part of New York State, but blew itself dry before reaching this city.

Heavy counter winds of forty odd miles velocity played havoc in exposed places, among other things tearing down many trees in the parks, an eight-story building vessel drove ashore off Fire Island, and in the East River a three-masted schooner all but ran down a Bellevue Hospital steamer. A tug got hold of the schooner, but her long prows had seemed about to enter the breaker and ran a hole through the isolating ward. The physicians in the ward were unable to do anything.

Two hundred bath-houses at Coney Island were blown down, seas covered Seaside Park with a foot of water, and the Brighton Beach race track was converted into a mud bath.

At night the weather cleared, though the wind still blew strong and the barometer continued strong.

Pledge of Party to Be Kept or White House Hints at Action.

BY DIRECT WIRE TO THE TIMES]

WASHINGTON. April 30.—[Exclusive Dispatch] President Roosevelt's latest message has taken effect in the House of Representatives. Entirely unexpected to administration circles, a programme of legislation embracing many of the features outlined by the Executive has been inaugurated by the House leaders.

Fear for the safety of the Republican majority in the next Congress and alarm for the welfare of prominent individual members has wrought a sudden change of heart upon the part of those who control the machinery at the popular end of the capitol building.

Intimations from the White House that members who disregard matters to which the Republican party virtually was committed by the election of 1904 need expect no aid from the administration for reelection this year, coupled with what have been construed as threats that those who openly obstructed the progressive legislation demanded might look for actual opposition from the same source, have turned plans upside down. As a result the leaders in the party are getting more action out of the House than they anticipated and possibly from Congress as a whole.

THE DESTROYERS.

TORPEDO FLOTILLA TO ARRIVE TODAY.

Six Destroyers Will Depart from San Diego at Nine O'clock and Are Due to Drop Anchor at San Pedro at Two.

BY DIRECT WIRE TO THE TIMES]

SAN DIEGO (Cal.). April 30.—[Exclusive Dispatch] At 9 o'clock tomorrow morning the six speedy destroyers comprising the second torpedo flotilla of the United States navy will leave here and at 2 o'clock in the afternoon will drop anchor off San Pedro. The orders issued to Lieut. Hutch. E. Cone, commanding the flotilla, make it necessary that the northward voyage be delayed until morning, but cones have been made for the embarkation of the officers and men while they are there.

Lieut. Cone telephoned Major Hopkins, fleet captain, officers and men to be ready to leave on Saturday. It was hoped that a greater number would be free to partake of Los Angeles' famed hospitality, but all of the original plans will be carried out, with the exception of a few minor changes, finally necessary at the last minute.

Although the people of San Diego had not recovered from the excitement and fatigue consequent upon the visit of the battleship fleet, they have showed great interest in the arrival of the torpedo flotilla and have visited the destroyers.

ST. LOUIS BUSINESS MEN PLAN NATIONAL MOVEMENT.

BY THE ASSOCIATED PRESS

ST. LOUIS. April 30.—[Exclusive Dispatch] Following the speech of B. F. Youkum, chairman of the executive board of the Rock Island and Frisco roads, before the Traffic Club here last night, business men of St. Louis have started a movement in which the manufacturers, bankers and business men of North, West, Chicago and other cities will cooperate toward a general renewal of business and restoration of confidence.

The idea was, in a measure suggested by Mr. Youkum, and his suggestion throughout met with the approval of many prominent business men in St. Louis.

W. D. Simmons, president of the Simmons Hardware Company, in an interview today, said:

"Predatory legislation fathomed by public antagonism to corporate interests must cease. The business outside the city is in a bad condition, and the public confidence has been lost.

All that is now lacking is public confidence. All that is now lacking is public confidence. There is no opposition to the socialists and much concern is felt by the citizens.

This anxiety spread to all parts of the country, as it is expected that the new general suffrage bill, if passed, will give the Socialists control of most of the municipalities.

MISSIONS DESTROYED.

BY THE ASSOCIATED PRESS—P.M.

CHINA. April 30.—[Exclusive Dispatch] Grave disorders have broken out, owing to the new taxation on the border of the provinces of Nagan-Ho and Ho-Han.

The French missions in the city of Ying-Shang were destroyed, the mission of the Chinese yamen, or court, was burned, and the prisoners were liberated.

Heavy counter winds of forty odd miles velocity played havoc in exposed places, among other things tearing down many trees in the parks, an eight-story building vessel drove ashore off Fire Island, and in the East River a three-masted schooner all but ran down a Bellevue Hospital steamer. A tug got hold of the schooner, but her long prows had seemed about to enter the breaker and ran a hole through the isolating ward.

In his upward flight the schooner caught into the chest of a log, who was leaning over the gallery wall, and made a bad wound. The leopard was himself badly frightened and ran into a room adjoining the gallery. The police quickly quelled the panic, and nobody was hurt.

CHICAGO. April 30.—[Exclusive Dispatch] "What America needs is a thrashing." You are all too fond of conceit. You worship the material. You scorn the things that are higher than the material. Business is everything—learning is nothing. Why, even China, of its kind, has a higher type of civilization than you have."

Such was the talk that American suffrage leaders heard from Prof. Luise L. L. Conard, a prominent woman, an eminent man of learning, professor of zoology and logic of the University of Cracow, Russian Poland, who, after a year's leave, is visiting and studying this country. He is here for a lecture at the University of Chicago tomorrow afternoon.

Amor, other things, Prof. Luise L. L. Conard, who has a massive brain and a disregard of learning that prevails. You are illiterate. To your business heads you pay high salaries—\$30,000 a year. To your professors you pay \$2000, or perhaps \$1000. It is because you have no knowledge, no thinkers, that you are here among you thousands of false teachers.

"And still I have faith in America," he said. "You are struggling for better government, and you will get it. Geographically, you have a strong position. Even though a rival power, in conquering you, were to gain a part of your territory, it could not be large."

"President Roosevelt is an able man. He forces the country's needs—ships. You need ships, ships, ships—not four, though dozen."

Robbers Murder S. C. White in Charge of Pay Train of Dolores

[BY DIRECT WIRE TO THE TIMES.] EL PASO, Tex., April 30.—[Exclusive Dispatch] S. C. White, an American, a member of the Brownsville (Tex.) lodge of Masons, was killed last Monday, according to advice received here today, on the road to the Dolores mines, in Chihuahua, by Mexican robbers.

White is said to have a family in Los Angeles, and to be the same man who was recently in trouble at Madera when he was forced to kill a Mexican.

It was near where he met death on the Dolores that a small gang waylaid and robbed about a year ago bandits. White was in charge of the pay train of the Dolores mine.

of the high rate of insurance in view of the reported intention of Japan to make a demonstration against China in retaliation for the refusal of the latter to buy out all their concessions in usual. The Japanese say no such demonstration is intended. The shipping of rice has not been affected.

The boycott by China on Japanese goods dates back to February 7, when the Chinese government seized the Japanese steamer Tatsu Maru, which had unloaded a large consignment of rice at Canton, and sent it to Japan, presumably to arm the revolutionists.

Japan immediately assumed a hostile attitude, although caught red-handed in an unfriendly act, and brought pressure to bear upon China, which on March 1, agreed to release the steamer Japan demanded that the Chinese pay the cost and the damages be paid, or war was given as the alternative.

March 9 a monster mass meeting was held in Canton to protest against actions to release the steamer. It decided that, failing to conciliate the smuggling steamer, a general boycott would be inaugurated against all Japanese goods.

March 16 a satisfactory agreement was reached, China granting every demand made by Japan. The boycott became effective at once, and spread to all cities of the empire. The Vice-Admiral of Canton resigned to show his sympathy with the popular feeling.

Japan's trade immediately began to show the effect, and Japan then gave the order of sending a formidable fleet to Chinese waters to terrify the people and break the boycott, which has extended to Hawaii and the Philippines.

COUNTESS GIZICKY TO MARRY ENGLISH POLITICIAN.

Vienna Report Says the Suit Will Be Brought in America to Avoid Almost Insuperable Continental Obstacles—Noblemen Finds and Recovers Their Child.

[BY DIRECT WIRE TO THE TIMES.] VIENNA, April 29.—[Exclusive Dispatch] The Countess Gizicky is now reported to be determined to seek a divorce in America for the purpose of marrying an English politician.

The determination to make America the battleground for the divorce suit is alleged to have been reached after it was found that the obstacles to a continental divorce are almost insuperable.

The difficulties between the young people reached their acute stage some two months ago and there is no indication of a cessation of their troubles. The arrival of the brother to the Countess, which is scheduled for Monday, is awaited before any further steps are taken.

According to the latest story here, the Countess was in London last March, as a guest of the Hotel Savoy, and placed her child in the country under the care of an unknown woman. The Count determined to locate the child, and the movements of the Countess were followed by the police.

A reconciliation then followed in Paris, but it did not continue very long. The Count later went to England and rescued the baby from its temporary home.

JAP CRUISER SUNK.

Explosion in Stern Magazine Wrecks Warship and Many Officers and Men Are Dead.

[BY THE ASSOCIATED PRESS—A.M.] TOKIO, April 30.—Admiral Yoshimatsu, commander of the training ship, died yesterday at the age of 60, occurring in the stern magazine of the cruiser Matsushima at 4:05 o'clock this morning, while anchoring at Makong, a harbor on the Pescadores Islands. The Matsushima—immediately sunk until only the bridge was visible.

Efforts at rescue by boats from the cruisers Hashidate and Nisshikaze were fruitless, as the vessel was listing heavily.

The lives of 141 men, including some officers. The majority of the officers were not saved, and at the time of the accident reports that the ship had been out of commission of 200.

The sons of Baron Chinda, Vice-Minister of the Foreign Office, and of Prince Oyama, Field Marshal, are among the survivors. The ship is being towed to port.

The cause of the explosion is unknown.

The private bank of Malone & Son, at Caruga, Ind., was closed yesterday by order of the State Bank Examiner, and will be placed in charge of a receiver. The institution reported short of \$10,000. The bank was capitalized at \$10,000 and had deposits of \$35,000.

General View of Canton,

where the boycott was declared, and picture of the Japanese steamer Tatsu Maru, which caused the trouble by landing arms and ammunition for Chinese rebels on Chinese soil. The Tatsu Maru was captured by the Chinese authorities when she was hove to ten miles off Macao, in Chinese waters, awaiting a pilot to get to the Portuguese port. She had as cargo fifteen hundred rifles and forty thousand rounds of ammunition, which were received, and some hundred and fifty rifles not on the manifest.

After many fruitless conferences during the course of which popular feeling in China grew high, the government, of March 16, acceded to Japan's demands, consenting to purchase the vessel's cargo for \$10,790, to pay the costs caused by the seizure, to salute the rehoisting of the Japanese flag and to punish the officers responsible for the seizure.

BY DIRECT WIRE TO THE TIMES.]

SANTA BARBARA, April 30.—[Exclusive Dispatch.] One-hundred sailors watched disconsolately from the pier Santa Barbara as the battleship and destroyers took the fleet between Santa Rosa Island and the mainland. He said he was sorry he had been left. Only a few scattered groups were up in time to wave a farewell to the battleships as they weighed anchor and steamed away for Monterey, which are due to reach at 7 o'clock tomorrow morning.

From squadron formation, in which the fleet was anchored while at Santa Barbara, the battleships departed through the Santa Barbara Channel for the north in single-column formation. Promptly at 6 o'clock, came across the water the song of the cables, and when morning later the ship Connecticut moved majestically out of her berth and headed toward Santa Rosa Island.

One after the other the ships of the first squadron moved in their allotted space in this gigantic game of "follow my leader," until the last ship of the first squadron, the Virginia, had moved on the scene when the Connecticut had sat at the blue water like an island for days.

At the last battleship of the first squadron took up its place in column. The Mediterranean division of the second squadron awoke into life exactly the right distance, and was followed one after the other by the eight battleships of the second division, with the Kenosha at rear guard.

This is my first foreign trip, and I am looking forward to my visit in the United States with great pleasure." In an interview conducted by his secretary, the Baron said:

"My stand is for international peace and progress. The object of my trip is to study the conditions existing in foreign countries, and I hope to bring about a better understanding with various nations, making it clear that the Chinese people must faithfully respect other countries' rights, and vice versa, nothing but the integrity of their own country, hold that the increase of military expenses is a wise way to maintain the facts, and strenuously endeavor to lessen the burdens of my nation in that respect."

Baron Sakamoto, a native of Japan, has been serving as a member of the Stars and Stripes on the flagship as she passed out to sea—could be so called. Many of the men who have come up to him before the date of flowers did not appear, but there were some who came down on West Boulevard in automobiles to bid Godspeed to the fleet and its gallant officers and men.

The reason given for the apparent lack of interest in the departure of the fleet was that the date of departure was changed within the last twenty-four hours, and instead of at 6 o'clock when the battleships steamed away.

During the stay of the battleship Hotel Potter was the headquarters of the officers ashore, and here they were entertained in a way which made them popular with both men and in this beautiful city of flowers. It was the call of the valley quail in the garden that awoke those who arose to spend the battleships, and the girls who were the daughters of the hotel who were particularly interested, for they were the wives of the officers on the decks of the fast-disappearing men-of-war.

On the day following by all the citizens of the Channel City over the unfortunate affair of the wrecked restaurant, and the Mayor and Council with their backs to the wall, would make the harpooner who discharged the sailors think a legal cordon has struck them.

The sympathies of the people are all with the sailors and action in retaliation against grafting restaurant and saloon men has already begun. John Senich, whose place was wrecked, after a period of overworking, was arrested, and by Capt. of Police on a charge of violating the liquor ordinance. He will fight the case.

The chief heard that Senich had defected to the side of Capt. of Police or the Chief of Police, and is reported to have boasted that he would fool them. Rose promptly arrested him and Senich denied having had such thoughts.

BANK MAY REOPEN.

Prospect Good for Rickey Institution

WAUKEE, April 30.—At a meeting of
the directors and stockholders of the
State Bank yesterday afternoon there
was more harmony and a more gen-
erally unanimous feeling toward re-
establishing the bank than at any time
since the failure.There is a general feeling that Rich-
ey's plan of absorbing the stockholders
will go through. Up to the present
time this plan has not been in favor.
Interest in the bank has been shown in
the board of directors, who are as-
signed to the task of reorganizing the
bank. All that remains, it is said, is the
signatures and the work of consolidation.The grand total for the seven cities
is \$45,000,445.

SIXTIETH CONGRESS.

WILL AID THE PHILIPPINES.**Bill Presented to Amend Tariff of Islands.****Proposed Changes to Enable Native Competition.****Leaders in Congress Plan to Pass Measure.****BY THE ASSOCIATED PRESS-P.M.**
WASHINGTON, April 30.—Chairman Payne of the House Committee on Ways and Means today introduced a bill to amend the existing tariff law governing importations into the Philippines.

It bears no relation whatever to the tariff bills to govern importations from the islands into the United States and applies solely to protecting commerce in the Philippines. It is the intention of the leaders in Congress to pass the bill at this session.

The bill is an administrative measure, having been recommended by the Philippine Commission, the Philippines commissioners here, the Insular Bureau and the Secretary of War.

The adding of section C in paragraph 20 of the bill will have no effect for the purpose of placing the local button industry of the islands in a position to compete with similar products imported.

By the insertion of a new paragraph No. 248, it is intended to establish the free entry of agricultural machinery, apparatus and implements, and every kind of steam and other motor power into the islands in order to assist the agriculturists and encourage the construction of roads.

The adding of section C to the present bill, however, which is the minimum duty for other machinery, not gives free entry entirely. This is to encourage development.

In order to make the classification of spirits imported into the islands conform to the classification given by the internal revenue laws of the United States, it is proposed in paragraph 288, an additional provision affecting Section A, to make spirits classified under this section pay duty according to the measurement; that is, by volume, and not by weight, as a liter regardless of whether it was a proof liter, but when a liter by measurement contains more than a proof liter.

Paragraph 288 is designed so that all materials for the construction or repair of vessels may be imported free of duty, to enable local shipbuilders and repairmen to compete with what might be termed exclusive legislation which would shut out competition and prevent the Lake Submarine Company, an independent organization.

The reasons for writing the anonymous letters were given by Mr. Whitney.

That of his own initiation, he undertook what appeared to him at the time to be the most merciful method of bringing to the attention of Congress the methods which he believed had been pursued by the Electric Boat Company in their endeavor to secure the contract, and action which might be termed exclusive legislation which would shut out competition and prevent the Lake Submarine Company, an independent organization.

In conclusion, the affidavit states that Mr. Whitney has no personal knowledge from which he could give any exact statement of the charges of the Representative Lillie.

WASHINGTON, April 30.—(Ex-

As a result another bill has been issued from the office of Chief of Engineers creating a harbor line board, consisting of Col. Biddle, Capt. Fries and Lieut. Leedes, all of the Corps of Engineers. This board will begin the work of establishing these lines without further delay.

Col. Biddle is the engineer officer in charge at San Francisco, and Capt. Fries and Lieut. Leedes are stationed at Los Angeles.

HOLDS UP FOREST FUND.**Senate Disposes of Agricultural Ap-

WASHINGTON, April 30.—The Senate had under consideration all of today the Agricultural Appropriation Bill. Practically all of the committee amendments were disposed of except those relating to the forest service, which will be taken up tomorrow and which are understood to be likely to provoke debate.

The appropriation for the Bureau of Forestry was reduced by the committee from \$323,662 to \$306,662, which is all that was asked for by the Secretary of Agriculture. Senator McCumber argued that the larger amount was needed.

I have great admiration for the Secretary, said Mr. Teller, but I want to see that he gets what he never restrained him from asking for something he needed.

The committee's action in reducing the appropriation was then approved.

CURRENCY COMMITTEE BALKS.**POSTPONE VIRELAND BILL.****BY THE ASSOCIATED PRESS-A.M.**
WASHINGTON, April 30.—The Committee on Banking and Currency had a brief meeting today, but declined to proceed for the purpose of taking up the Vireland currency bill.

The vote for adjournment was 12 to 2, the negative votes being cast by Meany, Burton, Weeks and McKinney.

The committee will meet again next Monday.

KNOBS ON BIG STICK.**President Wants More Money With Which to Conduct Investigations of Railroad Accounts.****BY THE ASSOCIATED PRESS-A.M.**
WASHINGTON, April 30.—President Roosevelt today told the representatives of Iowa, Townsend of Michigan, Campbell of Kansas and Sulzer of New York and urged them to make vigorous efforts to secure a larger appropriation for an investigation of the books of the railroads of the country to determine whether they are complying with the railroad rate law, providing that a system of uniform accounts must be kept as prescribed by the Interstate Commerce Commission.

For the next fiscal year the administration is asking an appropriation of \$10,000,000 to \$10,500,000, but the House Committee on Appropriations cut the

amount to \$8,000,000. It is claimed by the President and the Interstate Commerce Commission that this amount will be entirely insufficient.**Section 20, it was stated, is considered the most efficient clause of the Hepburn law, which protects the public safety clause. COULDN'T FIX
RESPONSIBILITY.San Diego Court Dismisses
Stolen Picture Case.One of "Examiner" Reporters
Committed Crime.But Testimony Didn't Show
Which One Did It.(BY DIRECT WIRE TO THE TIMES)
SAN DIEGO, April 30.—Exclusive Dispatch.—A magistrate Thorpe at noon today granted the motion made by Attorney Appel to dismiss the action against Haynes Talbot, Los Angeles Examiner reporters charged with burglarizing the studio of H. R. Fitch in this city on the evening of March 16 and carrying away certain photographs of the battleship film taken by Fitch at Magdalena Bay.

In rendering his decision, Magistrate Thorpe said there was an absence of testimony to show by whom the alleged crime had been committed. He also laid stress upon the fact that Talbot, one of the accused, had returned the alleged stolen property and offered to compensate the owner, and that it was not the evident purpose of any one to permanently deprive Fitch of the film.

The court added that he was, nevertheless, firmly of the belief that some one or more of the three defendants had gone to the studio, and in the absence of the owner and without his knowledge or consent, carried off the film. The犯人, however, were taken by special train to Los Angeles, where it was admitted the stolen films had been reproduced in the Examiner, in which the three defendants were mentioned. Judge Thorpe said in effect, he was of the opinion that the defendants or some of them had come to San Diego for the sole purpose of obtaining through him the battle ship film, and legitimate means, and since they could not be obtained in that way, resorted to other methods in order to carry out their purpose, and that "Fitch has sold to you or one of them when they were in the depths without the property: 'I will give you just ten minutes to get them, or you will be without a job in the morning.'

In granting the motion to dismiss the action, Magistrate Thorpe put not a little emphasis on his belief in the guilty knowledge of Talbot of the acts of one of the two other Examiner men, though the evidence showed his presence at the Santa Fe depot while the depredations were being committed.

Attorney Appel spoke about an hour in support of his motion, followed by his associate counsel, Mills and Hartman, who spoke briefly. Asst. Dist. Atty. Utter did not make a strong argument against the accused excepted of him; in fact, his address was very brief and unconvincing. He stated that he had no desire to diminish the character of "three distinguished young men," in fact, he said, "It was as much his duty as prosecutor to defend them as it was to send them to prison, acting for the people." However, he referred to the testimony of Miss Edith Barney, who, he said, carried the distinction of having made the first official and authentic discovery of the dimple of young Barney in the court records which would show that.

Referring to the alleged burglary, Utter said it would be an easy matter to hunt from the Santa Fe to the Pitch gallery, obtain the film and return in less than ten minutes. Appel was eloquent in his appeal supporting his motion and he quoted continuously from the mass of authorities he had before him.

Slip of Pen May Delay Execution of
Missouri Murderer Till
1917.(BY DIRECT WIRE TO THE TIMES)
ST. LOUIS, April 30.—(Exclusive Dispatch.) William Jeffries, in jail at St. Charles awaiting execution for murder, expects a lease of life as a result of a slip of the pen, either by the Governor or a telegraph operator. The Governor telephoned a reprieve for Jeffries for "Monday, June 4." So it happens that June 4 this year falls on a Thursday. That date will not fall on a Monday until the year 1917. Now Jeffries' attorney claps his hands in triumph. He can now postpone his execution until the year 1917.

The assault was committed yesterday afternoon. Doyle, who was known as Mrs. Garrard, ran the belt while she was sitting in the house, and when overtaken off Black Point. He was found hidden away and placed under arrest.

She was found unconscious by her husband at 6 o'clock. She soon rallied enough to name the man who had attacked her. She learned that he was on board the Ketchikan, which had overtaken off Black Point. He was found hidden away and placed under arrest.

BRIDGEPORT (Conn.), April 30.—(Exclusive Dispatch.) Becoming estranged in a costume of golden brown, with a thick veil hiding her classic features, pretty Mrs. Emanuel Augustine Lord sat in the Fairfield County Superior Court room here today and listened to her husband, Henry J. Lord, a millionaire horseman, who is suing her for absolute divorce, of their alleged relations with her negro coachman, Harry Cameron. Lord asked for the custody of their 4-year-old daughter, Lucy Johnson.

The two were married on April 2, 1902, and after a brief honeymoon, went to live on a fine country estate which Lord bought in Trumbull. There he established one of the most famous stables of blooded horses in this part of the country. It was to serve these horses that Cameron, the negro, first came here.

Mrs. Lord comes of a well-known southern family, famous for its beautiful women. Her husband charged her with misconduct with Cameron between March 1 and July 1, 1907. On the stand, Mrs. Lord today he said that after the house and stable, he had caught his wife leaving this room on several occasions, and he had several serious injuries. He testified that his wife came to him at one time and sleep with Cameron, but was allowed to do so because of his love for her. When Lord got him in the attic, Mrs. Lord dissolved to permit this, perhaps threatening considerable tempests.

During his visit with his wife, Lord had occasion to open a dresser in her room, and in a lower drawer he found a portfolio of his wife's letters and evidences of her handwriting, he claims, were placed in evidence, and which Lord testified that, when he told his wife she must leave him if he threatened him with assault.

MURDER JURY ACQUITTS.

Alaskan Charged With Crime in Con-
nection With Keystone Canyon

Riot, Is Freed.

(BY THE ASSOCIATED PRESS-A.M.)

SAKAN, April 30.—A special cable to the Times from Juneau, Alaska, says that after a costly trial to the government, the jury found C. C. Thorpe, accused of killing Fred Rhinehart in the Keystone Canyon riot last fall, has been acquitted by a jury in the Federal Court, which took just one ballot to reach its decision.

The tragedy grew out of the termination of a Government employee to cross the right of way claimed exclusively by the Alaska Home Railway, in the construction of the Copper River.

In announcing the acquittal on this charge, the court instructed the defense to be prepared to return to December with its witnesses to resume its case to the court.

The defense, however, argued that the defendant, George H. Hasey, an employee of the railway, had been killed in self-defense.

Judge Thorpe said in effect, he was of the opinion that the defendants or some of them had come to San Diego for the sole purpose of obtaining through him the battle ship film, and legitimate means, and since they could not be obtained in that way, resorted to other methods in order to carry out their purpose, and that "Fitch has sold to you or one of them when they were in the depths without the property: 'I will give you just ten minutes to get them, or you will be without a job in the morning.'

Judge Smith's Illness.

Relatives of Judge R. N. Smith, who went to a Sierra Madre sanitarium last week suffering from what was supposed to be an attack of bronchitis, have been informed by his physician that he is threatened with pneumonia. He is unable to get much sleep and is told ill to be returned to his home town present.

Quack Day.

Eleven quack doctors, charged with illegal use of the mails in advertising to perform criminal operations, will be summoned before Judge Wellborn in the United States District Court to day to plead. A number of minor criminal matters will be disposed of, as the court adjourns tomorrow for about two weeks.

Fruit Rebates?

With the appearance of a number of fruit dealers in various parts of the state, growers of southern California, in the Federal building yesterday, it was inferred that alleged rebates on fruit shipments over the Southern Pacific Coast were under consideration by the Federal grand jury. It will make a partial report today, but it is believed that nothing of importance will be recorded.

Tandem Torpedo Here.

Alexander Klinger of No. 762 East Third street has forwarded to Congress memoranda in connection with his tandem torpedo, which he has patented. Mr. Klinger has been working on this weapon of destruction ever since the Civil War, when the "mosquito fleet" was at Memphis, Tenn. The inventor claims that this is the only dirigible torpedo in existence. He expects that the Navy Department will turn its attention to his invention.

Whites' "War" Victors.

The "War of the Roses" ended yesterday and the Whites won the victory by 12 points, the score standing 704 to 584. The Reds and 1614 for the Whites, the grand total for the evening as the count was made. This evening at the Elbow Clubhouse, the final feature, the crowning of the Queen, the Mrs. Miss Emma Rosa, the captain of the victorious "White Roses," will take place with due pomp and ceremony.

Presentation to Cruiser.

Notices were sent yesterday to local subscribers to the fund for the purchase of a silver service to be presented to the cruiser California, so that the set will be given with a fitting ceremony on the closing day of the fleet celebration in San Francisco. Secretary of the Navy Metcalf and other naval officials will be present. The set will be placed on exhibition in San Francisco, and residents of this section, who contributed more than \$100, will be obliged to go north if they wish to meet their subscriptions helped to purchase.

TO PLEAD WITH POPE.

Mme. Anna Gould Goes to Rome in the Hope of Having Her Marriage to Castellane Annulled.

BY DIRECTOR OF THE TIMES

ROME, April 26.—Exclusive Dispatch.—An attempt was made recently on behalf of Mme. Anna Gould to obtain from the Vatican an annulment of her marriage to Count Castellane by the Pope, but the Pontiff, in spite of recommendations alleged to have been made by influential prelates, refused to arrange for an examination of the case.

It is reported to have declared that the church annulled marriages when doubts were entertained as to the stability of the ceremony, but never when one of the contracting parties wished to marry again.

Mme. Gould is still striving to have her marriage annulled and in the hope that the Pope will change his mind has come to Rome to plead with him personally. It is not likely, however, that she will be granted an audience. The papal major domo, Manager Blas, referred to it as the purpose of the Pope to receive divorced women in audience, even when liberal contributions of Peter's pence are made.

MAYOR QUITS IN DRY CITY.

Mattoon, Ill., Executive Resigns Because of Loss of License Money to Carry Out Improvements.

BY THE ASSOCIATED PRESS—A.M.

MATTOON (III.) April 26.—In accordance with his statement made four weeks before the local-option election which was held on April 5, that he would resign if Mattoon voted out its saloon law, Mayor Lewis L. Shantz tendered his resignation at the meeting of the City Council last night, it was accepted.

In his statement, Mayor Lehman took the stand that without the \$15,000 in revenue derived from the saloon, the finances of the city would be so impaired that it would be impossible to carry out the public improvements, and, inasmuch as he was elected by an overwhelming majority for improvements, he believed he could not carry out the will of the people.

Mayor Lehman is known throughout the State as a financier. He is not friendly to saloons, but considered it his duty to give time for Mattoon to get rid of them.

A special election will be held to choose his successor.

Waist Sale Today

New Styles at \$1.25, \$1.50, \$1.75

There's nothing commonplace or ordinary about the waists listed for today's special sale. To be sure the prices are small, but the values are without precedent, in this town. You'll agree with us when you see them.

They are made of nice white lawns, neatly trimmed with Valencienne edges and insertions, embroideries or medallions. Made to fit, too, and wear.

They are so far ahead of anything we've ever seen at the prices that there's really no comparison. Plenty of all sizes to start with.

\$1.25, \$1.50 and \$1.75 each.

Silk or Net Waists \$3.75

If this lot of waists had been bought in the regular way we would have to get six-hundred for them—and they are really worth it.

The net ones come in white or cream color, beautifully decorated with cluny edgings, bands and medallions.

The silk ones are made of good wearing, soft, lustrous taffeta; navy blues in tailor-made styles and black ones with short sleeves and lace trimmings. \$5 and \$6.50 values, easily enough. Today \$3.75.

—Second Floor—

Lonsdale Muslin 10c

The market price of Lonsdale muslin, as most every woman knows, is 12½c.

Today we will sell a limited amount (25 pieces—about 3000 yards) of this well known muslin at 10c a yard.

This price, however, holds good for one day only.

Pillow Cases 12½c

Fifty dozen pillow cases, made of fine fine, soft finished cotton, made the right way of the cloth, will be sold today, at 12½c each. This pillow slip is the one we sell regularly at 16-3c, and it's worth it.

For one day only, today.

65c White Flannel 50c Yard

Extra fine, soft, pure wool white flannel for infants' wear, skirts, etc. Five pieces of the usual 65c quality reduced for today's business to 50c a yard.

—Main Floor, Rear—

\$12.00 to \$15.00 Black Hats \$10 Each

Middle aged and elderly women can save from \$2.00 to \$5.00 on black hats here today.

We are going to sell three dozen of the season's prettiest creations—toques, leghorns and fancy braid hats—very newest styles, actually worth \$12.00 and \$15.00, for \$10.00 each.

LISSNERITES' TRICK TO DEBAUCH BALLOT.

**Stanley B. Wilson, Boss Hay and
Union Labor Party Heelers Register
as Republicans to Cheat the Pri-
maries—Dastardly Plot Exposed.**

REPLYING to the exposure by The Times of the combinations of Boss Lissner, Sidney A. Butler and other leaders of the Lincoln-Roosevelt League to defraud the labor unions, Boss Lissner declared in the Express last night that the statement in The Times that "photographers" had induced the union labor party leaders to commit fraud and perjury by registering as Republicans "is not alone the rankest sort of lie, but it is a libel."

Let us go to the records, gentlemen! The Times has the morning accumulation of the certificates of registration of Arthur A. Hay, Thomas Downey Fennedy and Stanley Brock Wilson, the labor-union bosses, all members of the labor-union party. Each makes affidavit that:

Lemuel Dawson Biddle registered on the same day, March 6, and on his original certificate of registration, he swore that he intended to affiliate at the ensuing primary election with the Republican party.

But this affidavit does not appear on the original certificate of registration of either Biddle, Fennedy or Wilson. These three have been known for years as the leaders of the labor-union party in Southern California. Wilson was candidate for Mayor at the last election on the Labor-Union party ticket, and Fennedy and Biddle were his chief of staff. They have been at the head of every strike, boycott, riot and lawless union-labor demonstration in Los Angeles for years.

They now falsely register as Republicans for the purpose of taking dishonest part in the primaries, interfering with Republican rights, assailing the integrity of the ballot and mocking the laws of the State, and they do it openly. Lissner in his "party-busting" campaign. They will not let the Republican ticket in November.

On March 6 of this year Thomas Downey Fennedy made an affidavit in registering that:

"I intend to affiliate at the ensuing primary election with the DEMOCRATIC PARTY."

On April 14 Fennedy went to the County Clerk's office and made the following affidavit:

State of California, County of Los Angeles, State of Los Angeles: Fennedy being duly sworn, deposes and says that he has been a member of the great register of said county of Los Angeles for many years past, and that in the course of his registration, he has changed his political views, and in good faith declares his affiliation with the Lincoln-Roosevelt League, and that he has submitted and sworn to before me this 14th day of April, 1908.

Witness my hand and seal this 14th day of April, 1908.

C. G. KEYES, County Clerk.

An affidavit similar in form to the above was signed by Lemuel Dawson Biddle on April 15, and by Stanley Brock Wilson on April 15. However, the three registered as Republicans and each went to the County Clerk, after the negotiations with the leaders of the Lincoln-Roosevelt League were opened, and the affidavit of Biddle states: "He has changed his political views and declares his affiliation with the Republican party."

PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

Councilman Yonkin laughed yesterday when told that the Good Government League would attempt to hang his scalp on the belt of Ex-Police Commissioner Sadler, through means of the recall.

The Department of Buildings received a remittance of conscience money from Pasadena yesterday.

Commissioners Edwards and Hubbard of the Board of Public Works returned yesterday from an inspection of work on the aqueduct, reporting excellent progress.

Judge Hutton yesterday handed down a decision in favor of Mr. and Mrs. Louis Kleinpeter, who sued Notary Public Andrew L. Castro and the American Bonding Company, his surety, to recover \$150, lost by the forgery of a deed acknowledged before Castro.

Judge William P. James will become presiding judge of the Superior Court today for the ensuing year.

At his own request, W. H. Reynolds was reinstated to his former management, his emissaries yesterday reported to a characteristic trick and device with a "big stick" attachment.

An anonymous letter, printed on school department paper, was sent to the schools, clubbing the teachers into signing an agreement to work for nothing for about two weeks, in order that the term might be shortened because of lack of funds.

Three teachers called up The Times on the telephone and complained of the infringement on their rights, saying that it had been plainly intimated to them that unless they surrendered they would lose their jobs.

The communication was forwarded by the office of an indignant committee of protesting teachers. It is here reproduced.

THE APPEAL AND COMMAND.

"To the Principals and Teachers of the Los Angeles City Schools:

"This is a critical time in our campaign for good salaries. The present City Superintendent and City Board of Education are firmly committed to the policy of paying adequate yearly salaries."

Owing to the form of the present salary schedule, the board cannot pay the yearly increase in full during the school term to be shortened. Owing to a shortage of funds, the board can only give \$100 and one-half months, more than ever before.

"It is wrong that our increase of

COUNCILMAN LAUGHS AT THREATS OF ENEMIES—CONSCIENCE FUND AT CITY HALL RECEIVES FIRST DEPOSIT—FIRE COMMISSION AIMS TO HURRY UP GAMMELL FIRE ALARM INVESTIGATION.

It has leaked out that the Good Government League, which once favored "Doc" Howton, held a meeting on Wednesday night, at which it was decided to invoke the recall against Councilman H. H. Yonkin of the Sixth Ward.

One can only guess as to what charges they will attempt to sustain against Yonkin, as the meeting was supposed to be air-tight, and in the interest of ex-Police Commissioner Charles Sadler, who would like to succeed Yonkin.

Some of Yonkin's constituents are said to be "worried" because he has not grooved in the dust, in response to some of their foolish and impulsive demands. An effort may also be made to line-up the wholesale liquor dealers against him, and to make it appear that he has been in communication with them.

Yonkin does not take the matter seriously, although the petitions are said to be in preparation.

UNDERVALUED HOUSES.

CONSCIENCE STREET.

A conscientious individual, apparently a woman, has written a letter from Pasadena to J. J. Backus, Superintendent of Buildings of Los Angeles, which reads as follows:

"Hereewith \$4 that I feel belongs to the city building department. Some time ago I built four houses in Los Angeles, and the valuation was not put in at quite the full value. These houses are now \$1,000 less each, or about so, if I remember. I have been called upon to live an honest life by Jesus Christ, and I have even given up smoking, even in my home. As I am unknown to you, I sign no name."

Two \$2 banknotes were enclosed, but Charles E. Collier did not know what to do with the money, unless he opens a conscience fund account, and if he does this he fears it may become overstocked. At any rate, he is anxious to have another communication from the writer, telling him just what to do with the money. If the numbers of the four houses were known, he would be inclined to make a valuation to the correct figures and pay the money in balance to the books.

FIRE COMMISSION.

HOLD-UP OF ALARM BOXES.

The Fire Commission yesterday authorized communication to the City Council, setting forth that there is a demand for the removal of alarm boxes, none can be secured or installed until the investigation of the Gamwell contract is completed, and urging that the same be ended as soon as possible.

Chief Lips asked the abolition of the position of relief engineer, and the creation of a corps of assistants to the firehouses in its stead. He said it would be more satisfactory to him, and would save the department \$5 a month, the salary of the latter to be \$2 per month. A resolution to this effect was sent to the City Council asking that the ordinance be so changed.

The resolution was adopted at the suggestion of the Mayor, that no causeless ordinances or political meetings of any kind be held hereafter in any of the fire engine houses.

The following appointments were made in the department: Theron A. Hall, horseholder; Otto Schmitz, E. J. Wallace, Harry R. Burr, Herbert M. Wetherell and Charles Spencer, horsemen.

AQUEDUCT WORK.

WORKS BOARD PLEASED.

A. Hubbard and D. K. Edwards of the Board of Public Works returned yesterday morning from their trip to the Jawbone division of the aqueduct.

They went there unannounced, took their meals in camp with the men at work on the job, and declare the fare to be perfectly satisfactory. They heard no complaints from any of the men. Said Mr. Edwards:

"At Elizabeth Lake tunnel we found work going on rapidly on both sides of the mountain, the south portal now being about six feet above ground, plant three miles from Tehachapi, safety men are at work, and will probably be ready to furnish cement by November 1st. A well has been put down near the site of the works; it will flow thirty inches of water."

"The real purpose of the visit was to inspect the Jawbone division, perhaps the most difficult of all the aqueducts, and the specifications for letting it out to contract are now being prepared. It is twenty miles from Mojave, and is the point to which the Mojave River will bring its first arrangement of railroad, several miles of which are already graded."

All the camps along the line of the aqueducts are now connected with Los Angeles by telegraph. Englewood, Lipps and Hamlin soon on their tour of inspection, and will return to the city today.

MINES AND MINING.

SCHWAB PASSES FROM NEVADA.**Hot Meeting of Stockholders Held in New York.****Montgomery-Shoshone Is Declared a Huge Swindle.****This Third Rank Failure of Former Steel King.**

Telegraphic advices received by the Los Angeles Stock Brokerage Company yesterday contain the information that a strenuous and exciting meeting of the stockholders of the Montgomery-Shoshone Mining Company was held in New York on Wednesday to receive the report of the independent auditors, who had been engaged in a previous meeting two months ago.

The report was disappointing in the extreme and seems to suggest that a wilful attempt to mislead the stockholders has been made by the management. Some weeks ago it was officially given out that the report would be optimistic, and, under that guise, the man who had been sagging for some time, again sprang into demand. Report says that the ore-body has been lost at the 200-foot level and that the amount of ore in sight does not exceed \$500,000.

After the presentation of the report a stockholder of some prominence expressed his view of a forcible manner and asserted that the whole thing was a huge swindle. On Monday the stock was quoted at 3%, with strong demand, but receded to 1% yesterday with unlimited offerings, and a few takers at the low price. The whole Bullfrog market slumped in sympathy, the principal sufferers being Montgomery-Shoshone, which went from 15 to 8, and Gold Bar.

The latest fiasco probably marks the final elimination of Schwab as a factor in Nevada mining. It will be remembered that he entered the Tonopah field some three years ago in partnership with John McKane and secured control of Tonopah. Extensive work was done there, but success did not come up to his strong demand, but has been sagging for some time in sympathy with other issues of the industry, and he has offered as low as 1.50, with light demands and closed the day with offers at 1.15 and bids at 1.12%.

Schwab's next Nevada venture was the acquisition of the Montgomery-Shoshone, which has always been Rhyolite's premier support, and which caused the crash to that point several years ago. In view of the tremendous stock, which had been absorbed by the public at \$20 a share, commanded a premium of 2%, with extensive demands. With all the above-mentioned favorable reports some months ago the quotation receded to but a fifth of its former figure, and stockholders in the field became alarmed at the look. The Standard took up the position and insisted upon an independent examination. To provide funds for the erection of the splendid plant on the property Schwab had publicly advanced \$400,000, and he looks as if the whole property would eventually revert to him in settlement of the mortgage, which he holds as security for the loan.

The third and last deal in which Schwab figured was the Greenwater and Death Valley flotation in the early days of the stampede to Greenwater, which was a failure. The total capitalization of \$2,000,000 in that security at one time sold well over \$2, but is now down to 10 on the market, and is publicly naming the same. The transaction subjected Schwab to caustic criticism on all hands, and it was generally regarded as little short of a high-class mug. It is interesting to note, though, that Schwab has been wilfully misled by those in whom he placed confidence, and to whom he delegated the actual management of his interests. Last year he issued a denunciation of Nevada and its mining methods, and since that time has confined his attention to the development of the San Joaquin copper fields in Mexico. He is also reported to be negotiating for the Santa Eulalia properties, among the riches in the republic, on a basis of \$1,000,000.

The Copper Industry.

Charles E. Finney, the well-known local mining engineer and president of the London-American Copper Company, is the author of an interesting and instructive treatise upon the present copper situation. The author was in the service of the Consolidated Kansas City Smelting and Refining Company for ten years and for a part of that period was in charge of all its properties. He subsequently became manager of the mining and smelting interests of the Guggenheims and was a member of the Operating Committee of the American Smelting and Refining Company. He is therefore well fortified with information relating to the industry and his little treatise is filled with fair figures of the present and every man interested in copper. The production, consumption, and exportation of the metal are treated in a concise manner together with the general average of production cost and the percentage of profit. Mr. Finney is distributing the work free among his friends as a means of convincing them that the copper industry is not in the deplorable state some people profess to believe.

Littles Florence Lease Expires. The Little Florence lease on Florence ground at Goldfield, expired at midnight last Sunday night and no miners have taken possession of the property since. The property has produced nearly \$1,500,000 in the year and has distributed \$400,000 in dividends. Two other dividends of \$100,000 each have been paid, held indefinitely by the legal troubles in which the company is now involved with the Goldfield Florence Company. The proceeds from the last shipments of ore have, however, now settled all its liabilities and payment for the contracted right with the parent company. The latter has filed a complaint praying for damages in the sum of \$125,000 for unpermitted underground work and the loss of compensation retained with a counter suit. It is expected that the litigation will be extensive and that a large portion of the undistributed earnings will be dissipated before the matter is settled.

Quits Aurora.

Work on the Aurora Consolidated mines, in the Alamo district, seventy-five miles from Ensenada, Lower California, has been suspended by the company, which has been working them under lease for the past few months. The company was composed of Los Angeles and New York stockholders associated with Loftus & Davis, the successful leasers of Goldfield; J. D. Campbell, the mining engineer formerly connected with the Sulivan Trust Company of Goldfield, and

On Hammel-Dencker Ranch. The Amalgamated struck oil sand at 1,150 feet below 2,700 feet on the Hammel-Dencker ranch, west of Los Angeles, California. The Amalgamated Oil Company has three wells nearly finished near Sherman. It has seven wells all here.

INSURANCE FIELD.

C. E. Oro. The work has been in charge of Campbell, who has just returned to Los Angeles from the district. He says that it was impossible to extract the necessary tonnage for the reduction plant with the class of labor available in the country. Over \$50,000 has been expended in development under his management.

Strike on Laguna.

On Sunday last, when strike was made on the leather lead on the Laguna claims of Goldfield Consolidated at Goldfield. The find was made on the 400-foot level in a crosscut, and is said to show four feet of ore assay. At 425 feet the grade is 100%, which runs as high as 300%, and the strike is generally considered among the most important that has taken place in Goldfield for many months.

Movements of Mining Men.

A. C. Wagy, E. K. Foster and Robert Atkinson will leave for the Johnnie mine early next week, and will probably remain until after the annual meeting of stockholders, scheduled for May 22.

Charles G. Gates, son of John W. Gates, has returned from several weeks spent in the gold camps of Nevada, and is now engaged at a broker's law, W. D. Martin, at Pasadena. He will remain there for several days.

THE OIL INDUSTRY.

LOCAL FUEL TO GUATEMALA.**UNION SENDS FIRST SHIPMENT FROM SAN PEDRO.**

McKittrick Produces Seven Thousand Barrels Daily, All of Which Goes to Southern Pacific Locomotives, None Having Been Shipped Through New Standard Pipe Line.

The Union is about to ship 25,000 barrels of crude fuel from San Pedro to Guatemala for use in the locomotives of the railroad that crosses Central America. The fuel for this line has been going from California through the Union for the past year or more, but this is the first shipment from San Pedro. The oil will come from Los Angeles and Orange county districts, which are off a little more, were unable to supply the demand.

ACTIVITIES IN THE FIELD.

The Associated is taking every barrel produced in McKittrick and all goes to the Southern Pacific, not a barrel of commercial oil going out at this time. Sixty cents is the ruling price for new contracts and 50 cents is paid for daily runs, while 50 cents will in time go to lower figures.

These figures are carried out. The Standard offers but 50 cents and is making no effort to get contracts. No fuel is being taken through the newly-completed pipe line in the valley. The total shipments are around 7,000 barrels a day.

E. J. Miller, who is in Los Angeles, reports that he has just finished a barrel well at 76 feet on the 20-acre lease in 22, 30 of the State Oil Company controlled him and David G. Green, of San Francisco, is in the same a mile and a half north of McKittrick station. A contract has been made with the Associated. The company is affiliated with the Independent Agents.

Immediately adjoining, on the same section, the Associated has four new wells on the Del Monte land and on the eastern corner of the section two rows of wells extend diagonally across the tract with others on the border. Three 70 horse-power boilers have been put in and a second pair of similar capacity will be put in. The combine is getting close to 400 barrels a day from the Shamrock gusher. The Silver Bow, adjoining the State in 19, is pumping its two old wells and has signed a recent contract with the Associated.

Williams, Ball and Bandettini are down 550 feet on section 18, in the south end of the district, under management of A. H. Butler, Jr., and T. Curtis, is making a better showing than the others. INSURANCE FIELD.

The Travelers' Insurance Company of Hartford has equipped a "chamber of horrors" at the exposition of the American Museum of Safety Devices and Industrial Hygiene in the McGraw building, New York. The exhibit includes several hundred enlarged photographs of the places of many悲惨的 accidents experienced. To each photograph is attached a description of the accident and details of the causes. There are also specimens of worn-out gears, rods and other parts of defective machinery, parts of bursted boilers and flywheel and sections of dangerous boilers, the defects of which were discovered before a catastrophe.

BLASTS LIFE FOR WOMAN.

Sorri Finish to Career of Educationist.

Throws Honor to the Winds, Dies in Exile.

Was Superintendent Schools, Orange County.

Death has freed W. R. Carpenter, former Superintendent of Schools of Orange county, from the enthrallment of a woman for whose sake he gave up wife, children, an honorable career, and his good name.

March 2, Carpenter sent his resignation to the Board of Supervisors at Santa Ana and he and his family left town. But while the wife, daughter and son came to this city the man himself journeyed to Mountain View, Idaho, where he was joined by Mrs. French, widow of a former Baptist minister of Fullerton.

The very next day he parted from his family as he wrote his wife a pitiful letter pleading for forgiveness, stated that he still intended to work for her and his children. Indicated his desire to return to them—but still he went North to join the woman who had charmed him.

Now, after less than two months with the new woman, his carcase lies in the morgue of Overholtz—Miller's death being due to spotted fever and having taken place in the Idaho town from whence the remains arrived last night.

Mrs. French accompanied the body from the north, much to the indignation of the man's relatives here, who forced her to pay the money for the body to be sent here. They say the telegraphed \$300 to a bank at Mountain View and asked that the remains be shipped by express, but that Mrs. French, as usual, Mrs. Carpenter, succeeded in inducing the northern people to forward the body as baggage and she came on the same train, her fare coming out of the money supplied by the family here, which exacts her very name.

FIGHT OVER BODY.

When the corpse was placed in the undertaker's morgue, Mrs. French, the relatives say, declared she would not give the body up to them to attend to the last sad rites. She refused to part with the death certificate, without which burial could not be made, and there seemed every likelihood of a nasty quarrel over the dead body of the man who loved two women. After a great deal of trouble she gave up the papers and the family of the dead man has asked the undertaker not to allow anyone to enter the room to see them again before they are interred in Ingleswood cemetery tomorrow.

Before becoming County Superintendent of Schools in Orange county, Carpenter taught for four years at Fullerton High School. He was considered a square, straight man of unusual attainments and commanding ability. He idealized his wife and always thought a good deal of his family.

The Rev. Mr. French, who was the wife of the pastor minister at Fullerton. The preacher was an old man, about twice the age of his wife. The Carpenters attended his church and the women of the families became close friends.

Some years ago the minister moved north to Bakersfield, and there he died about two years back. Mrs. French, Mrs. French, remained his acquaintance with the Carpenters. She stayed for a week with the family. The two women wept over the dead departed, and Mrs. French sought sympathy from the minister, who received her. During that week of sympathetic mourning commenced the liaison which ultimately broke up the family and sent Carpenter to an untimely grave. He had been 50 years old, the age of a man's greatest usefulness.

PASSED ON THE SLY.

Mrs. French came to Los Angeles to live, and Carpenter made frequent visits to this city, during which the couple lived as husband and wife. He could pass only a day or two with her, however, before he was compelled to keep all knowledge of his double life from his wife and family.

About a year ago, however, Mrs. Carpenter's suspicions were aroused, and she traced him down to his infidelity. He at once confessed and said he was infatuated with Mrs. French. As there seemed to be no other way out of the terrible secret agreement to separate, he made a secret arrangement with his son and daughter, aged 11 and 15, respectively, to send them to San Francisco. Everybody at Santa Ana believed the move was simply a visit to Mrs. Carpenter's sister there, none had any idea of the true state of affairs.

Carpenter continued to hold his office as County Superintendent of Schools but his excursions to Los Angeles were more frequent, and his stays with Mrs. French of longer duration. Mr. Carpenter had hardly arrived in San Francisco before his husband wrote, imploring him to come back. He sent letter after letter to the same effect, and all the time yielded to his fascination for the other woman.

AFTER about three months, Carpenter succeeded in inducing Mrs. French to go to New York, where her mother, a widow, now lives, and he never saw his wife again. She was overcome by foolishness and beseeched her to return. She agreed, and came back to Santa Ana. Because, for so many years, Carpenter had been the best of husbands, she was willing to forget and to forgive.

SACRIFICE IN VAIN.

The confirmation of Rene, son of Mr. and Mrs. Felix Levy, No. 1701 South Broadway, will be celebrated Saturday evening at the home of the parents at 1511 E. 11th Street, tomorrow morning at 10 o'clock.

SHOCKING.
A telegram signed by Mrs. French as "Mrs. W. R. Carpenter" and stating that he was dead.

WAS HE DERANGED?

His family is thoroughly convinced that, clever and brilliant as he was, he must have been deranged to have taken up with Mrs. French. They say that it seems as if the woman had some abnormal power over him almost as if she hypnotized him. He acted as though he did not desire to go away from her, but as if an overwhelming force within him was overpowering him compelled him to act against the dictates of his better nature. In the letters his wife received from him while he was still in the company of Mrs. French, he constantly stated his love for the former and his wish that the old life could be renewed.

Mrs. French is described as a woman of about 40 years, tall, attractive above the average. She is the only child of wealthy New York family, which knows nothing about this escapade.

CATHOLICS CELEBRATE.

Annual Mass Exemplifies Movement in Episcopal High Church Circles.

Lunch and Meeting.

With all the solemnity of the ritual revived by the Catholic movement in the Episcopal church, differing from the Roman-Catholic chiefly in using English instead of Latin, the second annual mass of the Catholic Club was celebrated yesterday at the Church of St. Michael at Brooklyn Avenue and St. Louis Street in the presence of a good-sized congregation at 11 a.m. The service was a high mass, the music being rendered by a choir of clergy in the sanctuary and by the congregation.

Before the mass the clergy marched in solemn procession from the parish house to the church, headed by the Rev. Father Kichy, with the attending acolytes and chanting the litany. Father Kichy acting as cantor. The celebrant of the mass was Rev. Alfred M. Smith, rector of St. Mathias' church.

The sermon was preached by Father Lathrop, of the Church of the Advent of San Francisco, who spoke from the text, "This is My Body" on the doc-

FIERCE ENCOUNTER.

(Continued From First Page.)

Widaman fired, the bullet cutting through the lapels of my coat. My revolver exploded before I could get it up. The woman fell, and the two men jumped on me and overpowered me.

PAPER IN EVIDENCE.

Widaman directed Sanger to put down the window, while he extracted the shell from the revolver and got away before the arrival of the police. In a few moments people crowded around Widaman, who was then arrested. There only one thing about this affair for which I am thankful, and that is that I did not get my revolver out of the drawer while those two men were with me.

The paper over which the shooting occurred was found by the detectives. It bore Widaman's letterhead, and reads as follows:

"Dear Widaman: I decided to give my El Paso property to my wife, and execute a deed from myself to you. You will find it in my box. Please do not interfere with me. Here the writing stopped, and a streak on the paper showed, where Bell had purposefully broken the pencil point.

EVENTS IN LOCAL SOCIETY.

Mrs. JOHN H. NORTON of No. 1 tiny electric bulbs. Cards hand-painted with Chinese figures, the work of the hostesses, were used for scores. Hand-some prizes were awarded to Mrs. Oliver Edmonds, Mrs. Wm. C. Stone Marion Chaffey, wife of Congressman David McEntee, was one of the social sensations of the season. Wednesday evening Mrs. Norton will entertain with a matinee party at the Auditorium as a courtesy to Miss Constance Britt, another bride-elect. Later luncheon will be served at Hotel Alexandria.

Miss Gretchen Day,
so assisted at an elaborate luncheon given yesterday at Hotel Alexandria
by Mrs. William W. Johnson.

Sunday Mrs. Norton is to entertain on a luncheon and tea at the Los Angeles Country Club in honor of Miss Elizabeth Drake, whose engagement is only been known about three weeks.

At California Club

Miss Mary H. Hall of No. 1000 Mahan street was a charming hostess yesterday when she entertained with luncheon at the California Club in honor of Miss Kate Van Nuys, who last night was married to Mr. John Hale, who was decorated with a beautiful centerpiece of maidenhair ferns, among which were concealed corsage bouquets for each guest. Covers were laid for forty-five.

Johnson and Theater Party.

Delightful among yesterday's informal functions was the luncheon at the Copper Kettle Tearoom theater party at the Belasco, given by Mrs. W. T. Johnson of No. 201 West Pico street. The guests present were Mrs. E. W. Britt, Albert Stephens, Mrs. Will Graves, J. R. Dupuy and Mrs. John Wolf.

Arrived at Ventura.

Miss Edith Gilman and Le Compte of Los Angeles were recently arrived in Ventura.

Arrived Trip.

Mr. and Mrs. George Noyes of No. 5 Pasadena avenue left Sunday for an extended trip through the Northern States. They will be away about six months.

Immaculate Luncheon.

Inspire in all its appointments the luncheon and bridge party on yesterday at Hotel Johnson No. 20 St. James Park. The long table was most brilliantly decorated with bands of bridegroom roses, tastefully arranged from end to end. In the foliage were numerous

Humor of the Senate.

It must have been with a premonition of what was in store for them that Mr. Bayner of Maryland rose declaiming his set piece, "I am unbound and unbound, Wednesday and to be as funny as they could, despite of the example of the late Dr. [Laughter].

The following item in the final Appropriation Bill started the rolling:

Purchase of feed for horses to cover other than hatching."

Heyburn of Idaho, who comes from a range country, could imagine

branch of the navy other than the

naval service that would want

to be as funny as they could,

despite of the example of the late Dr. [Laughter].

The following item in the final Appropriation Bill started the rolling:

Purchase of feed for horses to cover other than hatching."

Heyburn: And the Agricultural

appropriation Bill surely is fa-

miliar with which the Senator probably is familiar.

There are many other con-

tingencies which we have not en-

tered upon.

Mr. Hale: I am very glad that

is one department that has not

come up in the Senate.

Mr. Warren: And the Agricultural

appropriation Bill surely does not pro-

vide that cows shall be taken to sea."

Mr. Hale: Testing self-control, be-

ing unusually funny."

Mr. Hale: I also suggest that

the word "horse" occurs the ad-

dition of the word "marines," so that

we ought to feed them."

Mr. Hale: I am very glad that

is one department that has not

come up in the Senate.

Mr. Warren: And the Agricultural

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

FROM AFAR.

THROOP GETS A LONDON CALL.

AT INTERNATIONAL CONGRESS WILL SHOW WORK.

On Account of the Distance Actual Specimens of Handcraft of Students Will Not Be Sent, but Fine Photographs Are Being Taken for the Purpose.

PASADENA, May 1.—An honor of no small degree has fallen to the lot of Throop Institute. The institution has been asked to send a display of the work done in its art and industrial department to the International Art Congress, which will this year be held in London in the early summer. On account of the long distance of conveyance, specimens of the actual handcrafts by the students will not be shipped, but fine photographs are being taken and these will show the character and standard of the work done in Pasadena.

Prof. E. A. Batchelder, head of the art and handicraft departments of the institution, will have English immigrants and other top class men in charge of the exhibit. He may take a leave of absence and spend a year abroad, but his full plans could not be learned last night.

Other schools in the United States are to be represented in the exhibition.

Benjamin Ide Wheeler, of the University of California, speaks to-night before the Federation of Men's Clubs at the Presbyterian Church, and this afternoon will address the students of Throop Institute. The lecture at Throop will be open to the public.

ELKS VAUDEVILLE ENDS.

The second night of the Elks' vaudeville proved as great a success as the first. The proceeds from the entertainment will not go to the Children's Training School, as was misstated, but will be applied to the Elks' new home on New Raymond, which just opposite Lincoln Park, which will be erected in the near future.

FINDS DEER IN CORRAL.

When he visited the burro corral at Strain's "Camp" yesterday morning, Manager Fred Ross of the Mt. Wilson Hotel, found two wild deer eating the alfalfa. The corral was built in time with the exception of the deer, as no burros are kept in the place at present. When Ross rang one of the cowbells, the deer looked around for a few seconds, and then leaped over the fence and disappeared in the brush.

Paul Haber, an employee of the Mt. Wilson Observatory, saw deer last evening in the valley, and the old trail on Sunday, and the deer are said to be plentiful on the mountain.

At present hunting is restricted from shooting in the preserve controlled by the Mt. Wilson Toll Road Company, and the effort is being made to accustom wild animals there to human beings.

SCHOOL CENSUS IN.

When A. A. Graves makes his report to the Board of Education, it is expected that nearly 6,000 children of school age in the city of Pasadena will be enrolled. The returns are not all in, but it is expected that they will be turned in in this evening.

The rating of one school child to every five adults, Pasadena will be able to back the claim of 36,000 inhabitants.

EDITOR BUYS HOME.

J. H. Pryor, who recently purchased a half interest in the Pacific Power and Light Company, has returned yesterday from the residence of George Lawrence Simpson on Oak Lane for \$5,000. The house has two stories, and is of modern architecture, and the finishing and improvements are especially fine. The property on which the house stands, including the adjoining lot, selling for \$35,000 in addition.

AUTO BORROWERS FINED.

In keeping with their self-confessed stealing of autos was the penalty imposed by Judge Robert McDonald when he fined the Monte Carlo Borrowers \$100 each and \$50 costs yesterday morning. In administering the penalty, Judge McDonald said that it is time such actions on the part of young men should stop. In view of the damages the automobiles, he made them pay a rental of \$4 an hour on the machines, the rental amounting to \$16.

TO ADVERTISE PASADENA.

When he left Pasadena yesterday morning, Secretary Willis Johnson departed with the intent that he express a desire to see that he would make arrangements to advertise the Tournament of Roses during his trip this year. He goes on the journey in search of rest near his old home in Cleveland, and while in the East will be writing to radio stations, giving publicity to Pasadena through their magazine advertisements. He will return to Pasadena in June, but will make a second trip East in midsummer, possibly going abroad.

TRUGGITT FINED.

Three defendants, indicted, and a fine of \$50 on each count, was imposed on George D. Johnson, proprietor of the Pasadena Pharmacy, in Judge McDonald's court yesterday afternoon. Johnson pleaded guilty to a charge of selling liquor and, as he seemed to be in the habit of doing this being his third time arrested, the court was inclined to be severe. The fact that Chief H. H. Favoured stated that all liquor has been removed from the shelves and refrigerators of the drug store, saved Johnson from a jail sentence.

Judge Klamth yesterday fined S. G. Ochoa, \$50 for running a "blind pig" at Puento, and Nicholas Ochoa, accused of the same offense at San Gabriel, \$10. Favoured, proprietor of the Puento saloon, was fined \$100 for selling liquor on Sunday.

W.C.T.U. COUNTY OFFICERS.

Mrs. Hester T. Griffith, county president of the W.C.T.U., was forced to refuse a second term in that office, although her name was placed in nomination yesterday. Stress of other duties was given as the cause of her resignation.

The officers elected were: President, Mrs. Julia D. Phillips, Los Angeles; Vice-president, Miss Mary A. Stewart, Pasadena; corresponding secretary, Mrs. Francis W. Davenport, Los Angeles; recording secretary, Mrs. L. Carter, Los Angeles; treasurer, Miss Eva K. Benson, Pasadena; secretary, Miss Mary A. Stuart, Pasadena; Loyalty Temperance Club, secretary, Miss Louise Blanch Helm, Long Beach.

PASADENA PICKUPS.

Women representing the missionary movement in nineteen churches in Pasadena gathered yesterday in the First Baptist Church in the regular semi-annual meeting of St. Paul's Episcopal Church.

the Pasadena Woman's Missionary Society. Over 100 delegates were present and the work was shown to be greatly prospering.

Rudolph Schirfman has been appointed chairman of the advisory committee on uniform shade trees, and proposes to go to work at once.

BRIDGE PARTIES.

Mrs. George Gerald Guyer of Alameda was the hostess yesterday afternoon at an elaborately appointed bridge party given in honor of Mrs. Mrs. Cleon of Chicago, who is leaving for Europe next week. The game a collation was served in the dining-room, and here Mrs. Harrison Drummond and Mrs. Cleo passed over the tea-cups. Those who participated in the party were Miss John Lambert, Harry Thompson, Charles D. Callery, Henry Vilas, Waldo Wright, A. S. Halsted, Helen Bell, John W. Burgess, Mrs. T. V. Devore, Harry Gray, Charles Cranz, Perkin Arthur Woodward, Henry H. Miller, Fred Elmer Wilcox, Edwin H. Ross, Harrison J. Drummond, Benjamin Blossom, Joseph Hixon and Edwin Hill. Misses Arthur A. CLAREMONT, April 30.—Dr. David Stoen Johann, president of Stanford University, addressed the students here in chapel this morning on the "Differences Between the Small College and the University."

He said that the colleges should cooperate with, rather than rival, their larger institutions and that for undergraduate work, especially the first two years, the student should seek the college rather than the university. Plans for raising the standard of the university were not mentioned.

On May 6 the Veterans' Volunteer Life-Saving Corps will stage "A Terrible Tangle" in the Auditorium. This entertainment is being given for the benefit of the Red Cross fund, which properly equips the volunteers for effective service during the summer season. The corps is in need of cork jackets and life buoys and, as it has no other source of revenue, is forced to call upon the public for assistance.

act as referee for a series of boxing bouts that will be held in the Auditorium one evening next week. The contestants will be Los Angeles amateurs, who have agreed to put on the gloves as a benefit to the disabled athlete, Morton, whose leg was broken in an unsuccessful descent Sunday afternoon.

The ship Cabrillo will be the scene of a merry banquet and lawn feast one evening next week. The dinner will be given jointly by the members of the women's clubs and the Good Government League in celebration of the victory gained by the friends of Venice at the recent municipal election. Considerable interest is being developed in the affair, which was scheduled for last week, but the fleet decided to postpone.

The women's clubs of Southern California have accepted July 14 as their date at the California Chautauqua, and this will be known as the "Speaker's Day." The speakers will be the women of the various clubs and organizations, representing sixty organizations of the women, promises to assemble on this occasion a representative number of the members of the League.

REAL FRIENDSHIP WITH RED MEN.
PUTS VALUE ON HUSBAND'S LIFE.
INDIANS' INTERESTS FURTHERED AT RIVERSIDE.

Earliest Plan for Better Treatment of the Tribes Is Presented at the Conference—Death Rate Far Exceeds Birth Rate Is Statement of One of the Speakers.

For Loss of Mate Wife Is Allowed Twelve Thousand Dollars—Company Settles Out of Court Another Suit Growing Out of Accident on Which Former Was Based.

RIVERSIDE, April 30.—The culminating feature of the Indian conference which has been in session at the First Congregational Church at evening, addressed by Lieut.-Gen. George W. Evans of Los Angeles, U.S.A., retired, and Dr. George Spring of New York.

A large part of the audience which filled the church was made up of tribal chieftains and representatives of the various California tribes, and the boys and girls of Sherman Indian. At the suggestion of Dr. Spring, a cycle of the customs and traditions of the conference was given, with hands as they sang "America." The conference has undoubtedly brought the California Indians and their sympathizers among the white race closer together than ever before in the history of the state, and this ceremony sealed the spirit of friendship which had been created by the conference.

The speaker delivered a stirring address in the course of which he condemned the manner in which the Indians had been driven from their lands, and the treatment which had been accorded the red men is a blot on the annals of history. In the course of his address, one of the experiences of Indians of the West was related. Mrs. Van Tress was painfully injured in the collision, and had instituted suit for \$10,000.

DOUBTLESS WEDDING.

H. C. Wilson and S. Wheaton today subleashed the dining-room of the Roosevelt, the largest hotel here. They will close the Dragon lunch room they have been running.

L. H. Valla of San Bernardino has been made commercial agent of the Southern Pacific Railroad for this district late in the afternoon, and accepted the position with alacrity.

He is a native of the state, and has never known an Indian yet,

and is claimed to be the father of the son declared his father owed him more than \$800 for labor.

SANTA ANA NOTES.

A double wedding occurred last night at the home of Mr. and Mrs. Wellon of Highland, where their two sons, Mabel Claire and Mildred were united in marriage by Rev. T. M. Price to Fred H. Goode and Glen Collins.

SANTA ANA NOTES.

A double wedding occurred last night at the home of Mr. and Mrs. Wellon of Highland, where their two sons, Mabel Claire and Mildred were united in marriage by Rev. T. M. Price to Fred H. Goode and Glen Collins.

At the suggestion of Dr. Spring, a cycle of the customs and traditions of the conference was given, with hands as they sang "America."

The conference has undoubtedly brought the California Indians and their sympathizers among the white race closer together than ever before in the history of the state, and this ceremony sealed the spirit of friendship which had been created by the conference.

The speaker delivered a stirring address in the course of which he condemned the manner in which the Indians had been driven from their lands, and the treatment which had been accorded the red men is a blot on the annals of history. In the course of his address, one of the experiences of Indians of the West was related. Mrs. Van Tress was painfully injured in the collision, and had instituted suit for \$10,000.

DOUBTLESS WEDDING.

H. C. Wilson and S. Wheaton today subleashed the dining-room of the Roosevelt, the largest hotel here. They will close the Dragon lunch room they have been running.

L. H. Valla of San Bernardino has been made commercial agent of the Southern Pacific Railroad for this district late in the afternoon, and accepted the position with alacrity.
